About App..

How do I use the App ?

Acknowledgements

I Thank everyone who have helped me in making this project . I give special thanks to my parents and my mentor’s miss Kangana and miss Mani and clevered.

ABOUT ME

- My name is Ritu Nair.
- I am 12-year-old studying in 7th grade.
- I live in a middle easy country called Oman .
- I like to do Artwork when I'm free.
- I wish to become a Doctor when I grow up.

About My Internship w
Clevered..

My internship with clevered has
been amazing,
It was very interesting and fun.
I had lots of fun while making the
project
The classes were very nice as the
teachers were
Always clear my doubt's. I am very
sad as it is all coming to an end, but
this experience
was very fun and new.

About App..

My app is an Visual Sentiment Analyzer.
This app recognizes images . It is a Chatbot that recognizes images and responds to what it sees.
E.g. says "How cute" when the description includes words such as "kitten" or "puppy" but says "How scary!" when the
